

# Some people call us the big mouth of the gun lobby.

## They're right!!!

We're willing to comment on our critics' views and positions, fill in reporters on the facts about the gun lobby and the issue of gun control, even tangle with those who'd like to take a swipe at us and the Second Amendment.

So when you think of the **gun lobby**, think of **us**. And when you think First Amendment, call us, too. We're rabid

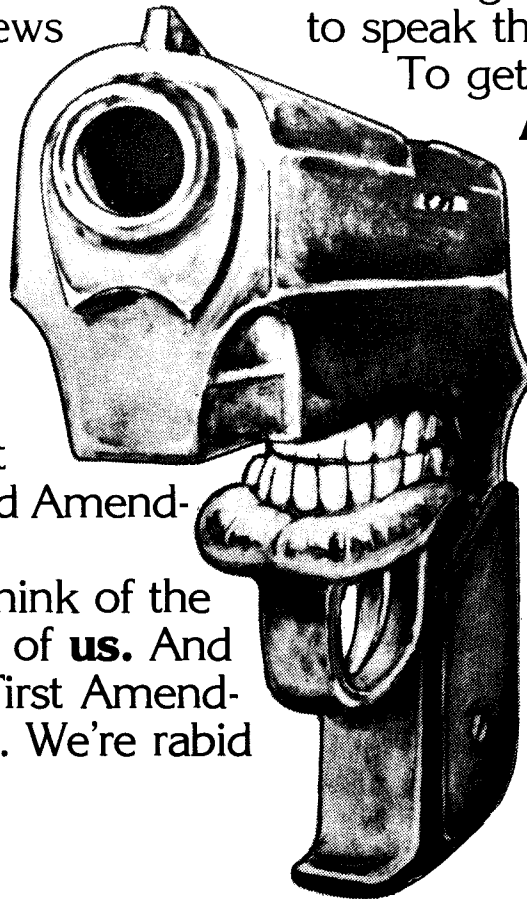

on the rights of gun owners to speak their piece.

To get a big mouth, call:
